#### Report of the Board of Directors

#### **Harvest Investment Fund - Global Convertible**

#### Overview

#### Global convertible bond picking

Our investment portfolio is focused on a buy and hold strategy. Generally, our time horizon, in normal circumstances, is at least of 2 years. We invest in around 70 companies in the world through convertible bonds. Our approach is unconstrained. We focus on selecting companies that offer an interesting perspective through their convertible bonds. We look for yield and, or equity rise participation.

#### Convertible bond unique characteristics

Convertible securities originated more than a century ago, when railroad companies in the then-emerging US economy needed to raise capital. Following the success of these early years, the convertible market has evolved into a dynamic and robust global arena where the basic structure of mixing debt and equity in a single investment remains unchanged. Convertibles combine equity and debt features, allowing investors to participate in potential equity price appreciation with limited downside risk, provided by the debt feature

#### Review of the performance

The difference in share class performance derives from their different characteristics:

Harvest Investment Fund - Global Convertible - Class A shares returned 10.52%. The global convertible portfolio of Class A shares has no currency or delta hedges. It is composed of convertible bonds, mandatories and preferred shares mainly denominated in USD (46.17%) and EUR (33.36%) and marginally in CHF, GBP, JPY and THB. The top-10-positions represent 23.20% of the portfolio and the main positions are held in Allergan 5.5% 2018, Take Two Interactive 1% 2018, Sony 0% 2022, Micron 1.625% 2033, Spansion 2% 2020. Compared to the Barclays Global Convertible Index we were underweighted in financials and industrials sectors and overweighted in healthcare, consumer discretionary.

Class B shares of Harvest Investment Fund - Global Convertible, being Class A shares of the Sub-Fund for institutional investors, returned 11.03%.

Class C shares of Harvest Investment Fund - Global Convertible, where we hedge on a best effort basis the non-EUR currencies, returned 10.46%. Effectively, global convertible bonds are mainly (around 60% of the investment universe) issued in USD terms. In the year under review, the EUR was nearly flat compare to the USD, explaining only a slightly lower performance of Class C shares versus Class A shares.

Class H shares of Harvest Investment Fund – Global Convertible, where we look for a reduced volatility, using delta and/or currency discretionary hedges, returned 0.64%. The lower performance of Class H shares compared to Class A shares comes from the cost of currency and delta hedges. Class H shares had during the year under review a volatility of 3.39% compared to Class A shares volatility of 6.30% so that the Class H shares lower volatility target compared to Class A shares was fulfilled.

#### Portfolio outlook

Once again, Mergers & Acquisitions ("M&A") have been positive drivers for equity and convertible bond markets. Convertible bonds, due to specific clauses like poison puts and ratchets, are positively impacted when an acquisition occurs. The sub-fund due to its size and investment characteristics tends to benefit from high M&A activity because convertible bonds are mainly issued by small and mid cap companies that are often the targets of bigger players. On the bond side, we tend to avoid high yield/distressed convertible bonds segment apart from very specific situations. On a sectorial point of view, we have suffered during the period under review from the underperformance of the pharmaceutical sector compare to the index, but we expect the sector to unlock value. Our leaders in terms of performance for the period are Micron 1.625% 2033, Take-Two Interactive 1% 2018 and Alibaba 2019. They are an illustration of the outperformance of the technology sector, and also of our picking.

#### Convertible bond market and outlook

On a global basis, primary market that gives the trend for pricing, specific clauses and demand thus basically of the attractiveness of convertible bonds is in-line with forecast. The refinancing activity has been strong ahead of a potential pickup in interest rates.

In this perspective, we are positive on convertible bonds because issuers will be able to make more significant savings on their debt costs, whereas in a zero-interest-rate environment, the marginal savings are weak compared to loans and straight bonds. This could be reinforced by US tax reforms, which, along with a drop in the corporate tax rate, pave the way for interest charges to no longer be deductible. Also when analysing convertible bond performance over more than a decade during periods of rate rises, convertible bonds showed positive performances, sometimes even outperforming equity markets while corporate bonds saw declines.

Overall, global convert markets have held firm, and compare to 2016, all regions except for Japan are well-ahead of last year's performance in USD terms and we estimate that not only the asset class but also the fund is well positioned for the future.

Ultimately and once again, we express our gratitude for shareholders' trust and continuing support.

The information in this report represents historical data and is not an indication of future results.

#### Notes to the Audited Annual Report as at June 30, 2017

#### 1. General

Harvest Investment Fund (the "Fund") was incorporated as an open-ended investment company (*société d'investissement à capital variable* ("SICAV")) with multiple sub-funds ("Sub-Funds") governed by Luxembourg law, established in accordance with the provisions of Part I of the amended Law of December 17, 2010 (the "2010 Law") relating to undertakings for collective investment.

The Fund was incorporated for an indefinite period on May 10, 2007. The duration of the Sub-Funds may be limited. On incorporation all the Shares representing the initial capital were subscribed for and were fully paid. The Articles of Incorporation were published in the *Mémorial, Recueil des Sociétés et Associations* on June 20, 2007. The Articles of Incorporation are on file with the *Registre de Commerce et des Sociétés of Luxembourg*.

The Fund contains one Sub-Fund with several Classes of Shares which were active at the date of the report:

Harvest Investment Fund - Global Convertible:

- Class A, B, C and H: Shares in EUR
  - o Class A, C and H Shares: are available to all investors
  - o Class B Shares: are available only to institutional investors

As of July 1, 2013, the Board of Directors of the Fund has designated Bellatrix Asset Management S.A. to act as Management Company for the Fund under the terms of the Management Company Services Agreement dated July 1, 2013. The Management Company is a public limited company ("société anonyme"). Its Articles of Incorporation dated March 30, 2007 allow it to act as a Management Company for undertakings for collective investment, currently in accordance with Chapter 15 of the 2010 Law. It exists for an unlimited period of time. As such, the Management Company will perform and render without limitation: (i) investment management services, and (ii) marketing, principal distribution and sales services.

Bellatrix Asset Management S.A. is also acting as Management Company for other Luxembourg investment funds, the names of which are available upon request from the Management Company.

The accounting year of the Company commences on July 1 and ends on June 30 of the following year.

Since the Company's business activity as at June 30, 2017 related only to the sub-fund Harvest Investment Fund - Global Convertible, the sub-fund's statements of assets represent at the same time the Company's consolidated figures.

#### 2. Summary of significant accounting policies

The financial statements of the Fund are prepared in accordance with generally accepted accounting policies and Luxembourg legal and regulatory requirements relating to the preparation of the financial statements. The combined financial statements are expressed in EUR.

#### a) Foreign currency translation

Investments as well as other assets and liabilities stated in foreign currencies are translated at the exchange rates prevailing as at the date of the report. The costs of investments are translated at historical exchange rates. Transactions in foreign currency during the period are translated at the rates prevailing at the date of transaction. Realised and net change in unrealised exchange gains and losses, if any, are recorded in the statement of operations of the Sub-Fund.

#### b) Investments

The value of securities, which are traded on a stock exchange or traded on another regulated market providing reliable price quotations, are valued at the latest price available on the valuation day.

In the event that any securities held in the portfolio are not listed on any stock exchange or not traded on any other regulated market or if the price obtained as described above is not representative of the fair market value of the securities, the value of such securities will be based on the reasonably foreseeable sales price determined prudently and in good faith in accordance with generally accepted valuation principles.

The cost of investments sold is determined on the basis of the weighted average price method.

#### 2. Summary of significant accounting policies (continued)

#### c) Forward foreign exchange contracts

Outstanding forward foreign exchange contracts as of year/period-end are evaluated based on forward currency rates for the remaining period up to final maturity. Realised and net change in unrealised exchange gains and losses, if any, are recorded in the statement of operations of the Sub-Fund. To the extent that forward foreign exchange contracts are contracted to hedge the currency exposure of a given share class, such results are directly attributed to that respective share class.

#### d) Futures contracts

Initial margin deposits are made upon entering into futures contracts and can be made either in cash or securities. During the period for which the futures contract is open, changes in the value of the contract are recognised as unrealised gains or losses by marking to market on a daily basis to reflect the value of the contract at the end of each day's trading. Variation margin payments are made or received, depending on whether unrealised gains or losses are incurred. When the contract is closed, the Sub-Fund records a realised gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the Sub-Fund's basis in the contract.

Futures contracts remaining open at the closing date are valued by reference to the last known market price. Any unrealised gains and losses are included in the statement of net assets.

#### e) Income recognition

Interest income is accounted for net on an accrual basis.

Dividends are recorded at the date upon which the relevant security becomes ex-dividend, to the extent information thereon is reasonably available to the Sub-Fund. These are presented for net of any applicable withholding taxes in the relevant country.

#### 3. Net asset value

#### a) Computation

The net asset value per share is expressed in the currency of the relevant Sub-Fund and is determined as of each business day ("Valuation Day"), by dividing the net assets of the relevant Sub-Fund or Class of Shares by the number of Shares issued and outstanding in the relevant Sub-Fund or Class of Shares.

#### b) Redemption of Shares

Each shareholder of a Sub-Fund has the right to request at any time the redemption of his/her Shares at an amount equal to the net asset value of the relevant Sub-Fund as described in the preceding paragraph.

For each Sub-Fund, the Fund may temporarily suspend the calculation of the net asset value per share, the redemption and the conversion of Shares under certain well-defined circumstances as disclosed in the prospectus of the Fund.

#### 4. Management company and investment advisory fees

In accordance with the agreements signed on July 1, 2013, the Sub-Fund pays on a quarterly basis to the Investment Advisor and Coordinator a fee accrued on each Valuation Day up to 1.85% p.a. for Class A, Class C and Class H Shares and up to 1.20% p.a. for Class B Shares, calculated on the average net asset value of the respective Classes of Shares, out of which a Management Company fee and Investment Management fee is accrued on each Valuation Day up to 0.50% p.a. for each Classes of Shares, calculated on the average net asset value of the respective Classes of Shares. These fees are recorded under the heading "Management company and investment advisory fee" in the statement of operations.

#### 5. Depositary bank and central administration fees

The commissions and fees for the Administrative and Domiciliary Agent, Registrar and Transfer Agent and Depositary Bank and Paying Agent are calculated as a percentage per year of the average total net assets of the related Sub-Fund and paid on a monthly basis as defined in the agreements dated July 1, 2013 and October 1, 2016, respectively.

These fees are recorded under the heading "Depositary bank and central administration fee" in the statement of operations.

#### 6. Performance fee

In addition to the "Investment advisory and management fee", a performance fee may be paid to the Investment Advisor and Coordinator on a quarterly basis in relation to Class A, Class B, Class C and Class H Shares. The Investment Advisor and Coordinator will be entitled to a performance fee calculated and due in relation of each valuation day for each Share and fraction thereof in issue at the rate of 15% of the difference – if positive – between:

- the net asset value per Share before deduction of the daily performance fee to be calculated, but after deduction of all other fees attributable to the respective Class of Shares, including but not limited to the Investment Advisory and management fee;

and

- the greater of ("High Water Mark")
- i) the highest net asset value per Share of the Class recorded on any preceding day since the launch date of the relevant share class.

and

ii) the last net asset value per Share of the Class recorded for the immediately preceding Valuation Day when performance fees were provisioned (the "Last Provision") increased by the performance of the reference index, 3 month EUR Libor (ticker ECCOTR03 Index) since the last provision.

In relation to Classes of Shares launched during the financial year of the Fund, the initial High Water Mark shall be equal to the initial subscription price of such Class of Shares.

The amounts so accumulated during each calendar quarter shall be paid out of the Sub-Fund to the Investment Advisor and Coordinator after each calendar quarter end.

For the year ended June 30, 2017, EUR 92,891.58 have been paid to the Investment Advisor and Coordinator as performance fees.

#### 7. Taxes

Under current law and practice the Fund is not liable to any Luxembourg income tax, nor are dividends (if any) paid by the Fund liable to any Luxembourg withholding tax.

However, the Fund is liable in Luxembourg to a taxe d'abonnement of 0.05% per annum of its net assets, such tax being payable quarterly and calculated on the net asset value of the Fund at the end of the relevant quarter. The reduced taxe d'abonnement rate of 0.01 % per annum will be applicable to Classes of Shares which are exclusively held by Institutional Investors. To the extent that the assets of the Fund are invested in investment funds which are established in Luxembourg, no such tax is payable.

Under current law and practice, it is anticipated that no Luxembourg capital gains tax will be payable on the realised or unrealised capital appreciation of the assets of the Fund.

Interest and dividend income may be subject to non-recoverable withholding tax in the country of origin.

#### 8. Other liabilities

The item "Other liabilities" includes as yet liabilities from pending transactions and unpaid expenses during the current financial period. This includes inter alia the "taxe d'abonnement", management company fee, depositary bank and central administration fees, audit fee and advisory fee.

#### 9. Transactions costs

In accordance with the 2010 Law, the transaction costs are included within the cost of the securities when purchased and in the net realised on securities when sold. In relation to futures, these costs (EUR 2,306.44) are disclosed in the statement of operations under "Trading fees on futures contracts" for open positions and in the net realised on future contracts for the closed positions. They are representing depositary and broker transaction fees during the reporting period.

For the year ended June 30, 2017 the transaction costs amounted to a total of EUR 72,761.81.

#### 10. Exchange rates

The following middle-market rates of exchange as at the balance sheet date were used for the conversion of all assets denominated in currencies other than the Euro:

1	EUR	=	0.87804	GBP
1	EUR	=	128.14736	JPY
1	EUR	=	9.55355	NOK
1	EUR	=	1.09220	CHF
1	EUR	=	38.74286	THB
1	EUR	=	1.14044	USD

#### 11. Related parties

All transactions with related parties were entered into the ordinary course of business and under normal commercial terms. The related parties to the Fund are the Investment Manager, Investment Advisor and Coordinator and the Management Company. The fees for transactions with the related parties are described in Note 4 and Note 6.

As of June 30, 2017, the Sub-Fund had not invested in related parties and there were no significant shareholdings in the Fund by any member of the Board of Directors of the Fund.

#### 12. Future contracts

The transaction costs for the future contracts are disclosed as costs.

As at June 30, 2017 the following future contracts were open for class H:

	Quantity	Description	Currency	Commitment	% of NAV
Sale	-5	Nasdaq 100 E-Mini Fut Sep/17	USD	495,663.52	0.93
Sale	-1	MSCI EM Mini Future Sep/17	USD	44,206.58	0.08

#### **Shareholder Information**

The articles of incorporation, the prospectus, the key investor information documents, the statement of changes in the composition of the portfolios, the annual and semi-annual reports are available free of charge at the registered office of Harvest Investment Fund, 26, avenue de la Liberté, L-1930 Luxembourg.

The semi-annual and annual reports contain general information about the Fund as well as data showing the Fund's development and its total net assets.

The financial year of the Fund begins on July 1 and ends on June 30 of the following year.

#### Unaudited supplementary information as at June 30, 2017

#### **Total Expense Ratio**

The calculation of the "Total Expense Ratio" is based on the stipulated fees and commissions paid by the relevant Sub-Fund on the average net assets during the financial year.

#### **Harvest Investment Fund - Global Convertible**

Total Expense Ratio (TER) - Class A EUR	2.23%	including performance fees:	2.30%
Total Expense Ratio (TER) - Class B EUR	1.54%	including performance fees:	1.85%
Total Expense Ratio (TER) - Class C EUR	2.22%	including performance fees:	2.35%
Total Expense Ratio (TER) - Class H EUR	2.22%	including performance fees:	2.22%

#### **Portfolio Turnover Rate**

For the year ended June 30, 2017:

#### **Harvest Investment Fund - Global Convertible**

Portfolio Turnover Rate (PTR): 42.74%

The "Portfolio Turnover Rate" indicates the turnover rate of the holdings of the Sub-Fund and is computed using the following formula:

PTR = [(Total 1 - Total 2) / Ml \* 100, with:

Total 1 = Total of securities transactions during the relevant period = X + Y,

where X = purchases of securities and Y = sales of securities.

Total 2 = Total of transactions in Shares of the Sub-Fund during the relevant period = S + T,

where S = subscriptions of Shares of the Sub-Fund and T = redemptions of Shares of the Sub-Fund

M = Average net assets of the Sub-Fund

#### **Global Exposure**

The global exposure of the Sub-Fund is calculated using the commitment approach as detailed in applicable laws and regulations including but not limited to CSSF Circular 11/512.

#### **Corporate Governance Statement**

The Board of Directors of the Fund confirms its adherence with the principles contained in the ALFI (Association Luxembourgeoise des Fonds d'Investissements) Code of Conduct for Luxembourg Investment Funds.

#### Transparency of Securities Financing Transactions and their Reuse

During the financial year of the fund no securities financing transactions and total return swaps in the sense of Regulation (EU) 2015/2365 of the European Parliament and the Council of November 25, 2015 on transparency of securities financing transactions and of reuse and amending Regulation 648/2012 have taken place. As a consequence, no information according to article 13 of the afore mentioned Regulation need to be disclosed to the fund's investors.

#### **Remuneration Policy**

Pursuant to the Law of 2010, the Management Company has drawn up a remuneration policy for staff categories, including general management, risk takers, individuals in a supervisory position, and any employee who, in terms of overall remuneration, is in the same salary bracket as the general management, and risk takers whose work has a substantial impact on the risk profiles of the Management Company or SICAV, in accordance with the following principles:

a) the remuneration policy is compatible with, and fosters, healthy and effective risk management, and does not encourage risk taking in a manner incompatible with the SICAV's risk profiles, regulations or incorporating documents;

b) the remuneration policy is consistent with the economic strategy, objectives, values and interests of the Management Company, SICAV and investors in the SICAV, and includes measures to avoid conflicts of interest;

- c) performances are evaluated as part of a long-term approach adapted to the SICAV investors' recommended holding period, to guarantee that it is in line with the SICAV's long-term performance and investment risks, and that the actual payment of performance-related pay is spread over the same period;
- d) a suitable balance is struck between fixed and variable components of overall remuneration. The fixed part accounts for a sufficiently high percentage of the total, such that a fully flexible policy can be followed for the variable components, in particular the possibility of not paying any bonus.

The Management Company's updated remuneration policy, including, inter alia, a description of the methods used to calculate remuneration and benefits together with details of the staff responsible for setting remuneration and benefits is available on the website http://www.bellatrix.lu. A paper copy is available free of charge on request from the Management Company's registered office.

#### Indication of the remuneration

#### REPORT OF THE REVISEUR D'ENTREPRISES AGREE

#### Report on the audit of the financial statements

#### Opinion

We have audited the accompanying financial statements of Harvest Investment Fund and each of its sub-funds ("the Fund"), which comprise the statement of net assets and the statement of investments and other net assets as at 30 June 2017 and the statement of operations and the statement of changes in net assets for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Harvest Investment and each of its sub-funds as at 30 June 2017, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

#### Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession ("Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the Commission de Surveillance du Secteur Financier ("CSSF"). Our responsibilities under those Law and standards are further described in the « Responsibilities of "Réviseur d'Entreprises agréé" for the Audit of the Financial Statements » section of our report. We are also independent of the Fund in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our report of Réviseur d'Entreprises agréé thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

## Responsibilities of Board of Directors of the Fund and Those Charged with Governance for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

## Responsibilities of the Réviseur d'Entreprises agréé for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of "Réviseur d'Entreprises agréé" that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for the purpose of
  expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.

- Conclude on the appropriateness of Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of "Réviseur d'Entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of "Réviseur d'Entreprises agréé". However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Luxembourg, September 27, 2017
